Accessibility statement

Version of 12 November 2026 · Translation for information. The German version is binding.

Scope

SavePaperwork for SchuleVernetzt is committed to making SchuleVernetzt accessible. This statement applies to the SchuleVernetzt web application: the school's administration area, the teacher portal, the parent portal, the class link and the foyer screen. The benchmark is the requirements of Directive (EU) 2016/2102, as transposed by the accessibility laws and regulations of the federal states, and therefore the standard EN 301 549 and the Web Content Accessibility Guidelines (WCAG) 2.1 at level AA.

Compliance status

SchuleVernetzt is **partially compliant** with the requirements mentioned above. A full assessment by an independent body has not yet taken place.

Non-accessible content

- Documents in PDF format (such as report cards and exports) are not consistently tagged as accessible PDFs.
- Files that a school uploads (such as attachments to circulars or notices) are the school's responsibility; SchuleVernetzt does not check their accessibility.
- The results of a full assessment under EN 301 549 are not yet available. We will add its findings here, with the date.

Preparation of this statement

This statement was prepared on 12 November 2026. It is based on a self-assessment by SavePaperwork: keyboard operation, contrast, labelling of forms and buttons, spot checks with a screen reader. It is reviewed with every assessment and at least once a year.

Feedback and contact

Have you noticed any shortcomings in accessibility, or do you need content in an accessible format? Write to support@schulevernetzt.org. We usually reply within two weeks.

Enforcement procedure

If you do not receive a satisfactory response to your message, you can contact the accessibility enforcement or conciliation body of the school's federal state, in Bavaria for example the State Office for Digitisation, Broadband and Surveying (Landesamt für Digitalisierung, Breitband und Vermessung; bitv@bayern.de). The school will tell you which body is competent in your federal state.
